FATES CHOSEN

BOOK 1

***"...AND THE BONDS OF
FAMILY WILL SEVER
AND BREAK."***

The Fates Chosen Heir is said to be a myth. But some know the truth.

Through the Veil of Elysian, faeries and humans rule side by side. Before the birth of the twin faerie princesses, a prophecy was foretold. One child to be chosen for light and one for dark. To save their land, the human king helps send one of the princesses through the Veil and into the true Human World.

But a prophecy must come to fruition.

Years later, Evie Monroe finds herself knee deep in tequila and other questionable coping mechanisms. But when the handsome Captain of the Stalwartian Guard arrives on her doorstep, she learns that faerie tales are real—as well as the monsters that come with them. Now she must fight to save a world she never knew existed.

And if she fails, she will doom them all.
